

SIVA SATYA SAI BHAGAVAN GOPALAJOSYULA

Software Engineer · Full Stack Development · Problem Solving · System Design

 +91-7569205626  g.sivasatyaibhagavan@gmail.com  LinkedIn  GitHub  Portfolio

Professional Summary

Software Engineering student with strong foundations in C, C++, Object-Oriented Programming, Data Structures, Algorithms, and Full Stack Development. Experienced in designing and developing scalable software applications, backend systems, REST APIs, and automation workflows using JavaScript, Python, Node.js, and React.js. Skilled in problem solving, debugging, system integration, database management, and software development life cycle. Passionate about building efficient software solutions and exploring new technologies in IoT, distributed systems, and intelligent applications.

Education

Ramachandra College of Engineering, Eluru (JNTUK)	2022–2026
<i>B.Tech in Artificial Intelligence and Data Science</i>	<i>CGPA: 7.5/10</i>
Sree Vidhya Junior College, Gudivada	2020–2022
<i>Intermediate (MPC)</i>	<i>78%</i>
Montessori English Medium High School, Gudivada	2019–2020
<i>Secondary School (Class X)</i>	<i>95%</i>

Internships

Software Development Intern	May – July 2025
<i>StudyOwl Education Pvt Ltd</i>	
– Developed backend systems and REST APIs using Node.js for scalable web applications.	
– Implemented JWT authentication and role-based access control for secure systems.	
– Optimized MongoDB database queries improving application performance and response time.	
– Worked on debugging, testing, and maintaining backend application workflows.	
Software Engineering Intern	May – June 2025
<i>SmartBridge (Remote)</i>	
– Built Flask-based APIs and backend modules for real-time application workflows.	
– Developed automation scripts and backend pipelines for data processing tasks.	
– Performed testing, debugging, and optimization of application components.	
Machine Learning Intern	May – June 2024
<i>Blackbucks (Remote)</i>	
– Worked on data preprocessing and workflow optimization for software applications.	
– Improved system efficiency through optimized processing pipelines and debugging techniques.	

Projects

Intelligent Chatbot Web Application [GitHub]	2025
<i>Full Stack Development · API Integration</i>	
– Developed a full stack chatbot application using React.js, Node.js, and REST APIs.	
– Implemented backend workflows, session management, and API integration for real-time responses.	
– Optimized application performance through debugging and efficient request handling.	
Career Recommendation System [GitHub]	2024
<i>MERN Stack · System Integration</i>	
– Developed a MERN stack application for career recommendation and resume analysis.	
– Integrated frontend and backend modules using REST APIs and MongoDB.	
– Performed testing, debugging, and optimization for smooth application performance.	
Leave Management System	2026
<i>Workflow Automation · Software Engineering</i>	
– Developed an automated leave management system with approval workflows and user management.	
– Implemented backend modules for request processing, validation, and workflow automation.	
– Performed testing and debugging to ensure reliable system functionality.	

Technical Skills

Programming Languages: C, C++, Python, JavaScript, Java, SQL

Core Computer Science: Object-Oriented Programming, Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks

Software Development: Full Stack Development, REST APIs, MVC Architecture, SDLC, System Integration

Frontend: React.js, HTML, CSS

Backend: Node.js, Express.js, Flask

Databases: MongoDB, MySQL

Tools & Platforms: Git, GitHub, Postman, VS Code

Concepts: OOP, SDLC, MVC Architecture, System Integration, Automation, Debugging

Other Skills: Debugging, Problem Solving, Automation Scripts, API Integration, UI/UX Basics

Achievements & Certifications

- **Certified** in Full Stack Development, Machine Learning, Python, Java, and AWS.
- Completed multiple software development internships across backend and full stack domains.
- Built scalable software applications using MERN stack, Flask, and REST APIs.
